Description

Exclusive, renovated country house with panoramic sea views in the municipality of Montecosaro (MC).

We are situated in a privileged location with panoramic views of the hills and the sea, just a few kilometers from Montecosaro.

The orangery was completely renovated in 2002, preserving original materials such as beams, bricks and floor tiles. The foundation and roof were renewed. The condensing boiler was replaced a year ago.

The 3,000 m² brightly lit and almost entirely fenced garden features various fruit trees, including approximately 15 producing olive trees and a private well for irrigation. There is also a carport and a garage with a utility room of approximately 40 m².

The farmhouse is currently divided into two large apartments with separate entrances, measuring approximately 120 and 128 m² respectively. These can easily be connected via an internal staircase, allowing the property to be flexibly adapted to different needs.

The ground floor features a large, bright living room, a dining room, a modern kitchen, a guest WC with shower, two bedrooms and a second bathroom with shower.

The first floor, currently accessible only via an external staircase, comprises a living room with a fireplace and an open-plan country-style kitchen, a large double bedroom, a bathroom with shower, a small bedroom/study and a large, currently unfinished room that can be used as desired.

This floor also includes a video surveillance system and access to the large attic with a gross area of approximately 119 m².

The windows are double-glazed, heating is provided by gas radiators and a fireplace. Water is supplied by the municipal water system (in addition to well water) and the gate is automatic.
